Timeless Style.

The Thom Filicia Home Collection was born from Thom's desire to create home furnishings that are exceptional, accessible and designed for the way we live today. The collection captures Filicia's classic simplicity, while introducing a unique modern flair that is both timely and timeless. It combines style and taste with today's desire for comfort, simplicity, efficiency and innovation. The result is a unique look where refined details mix with raw materials; industrial elements play against organic features; and colors, textures and patterns are used in innovative ways to create a collection with a sophisticated and authentic point of view.

Thom Filicia is universally known for his ability to create stunning modern, yet classic interiors that retain an inviting aesthetic which reflects the individuality of his clients. Filicia's unmistakable design sensibility has earned him countless accolades from the design world including being named by *House Beautiful* as one of their "Top 100 Designers," *House & Garden* dubbed him an "International Taste Maker" and *Elle Décor* regaled him as an "A-List Designer."

"This collection is all about simplicity and clarity of design — a fresh, crisp and more tailored approach, grounded in classic yet clean lines with thoughtful details and interesting finishes."
